FEB. – MAR.	Revision		

**SYLLABUS FOR THE SESSION 2024-2025****CLASS– VIII****SUBJECT – Computer****BOOK'S NAME: Cyber Beans**

<u>MONTHS</u>	<u>CHAPTER'S/TOPIC</u>	<u>SUB TOPIC</u>	<u>ACTIVITY / PROJECT</u>
APRIL	1. Networking Concepts	Networking, Advantages of Networking, Disadvantages of Networking, Networking Components, Wireless Networking, Types of Networks, Network Topologies, Network Security	Activity – Make a presentation on the topic: Network Security. Prepare atleast 5 slides. Set a beautiful background. Apply Nice formatting & animation effects to it. Project – Collect information about the latest development in the field the latest developments in the field of wireless technologies and make a collage for your computer lab.
MAY - JUNE	2. Popular e-Services	Requirements for e-Services, e-Learning, e-Banking, e-Shopping, e-Reservation, e-Jobs, e-Payment	Project – Create a presentation on the various e-Services that you have learnt in the chapter. Describe the benefits and drawbacks of each service. Also, include the application area of each service.
JULY	3. Emerging Trends	Big Data, Block Chain, Augmented Reality (AR), Virtual Reality (VR), Mixed Reality (MR), Extended Reality (XR), Expert System, Edge Computing	Activity – Make a presentation on the same. Set a beautiful background. Apply nice formatting and animation effects to it and present it to your classmates. Project – Collect information about the local grocery shop and study the way business is done.
AUGUST	4. Open Shot Video Editor	Features of Open Shot Video Editor, Starting Open Shot Video Editor, Components of Open Shot Interface, Creating a New Project, Opening a Project, Importing Photos and Videos, Arranging Files on Timeline, Applying Transitions, Adding Video Effects, Moving and Slicing Clips on Timeline, Adding Title, Exporting the Video	Project – Create a small video on the Traditional Dances of Southern states of India. Download pictures related to it. Give a suitable title and apply various effects available in the Open Shot Video Editor Software.

SEPTEMBER	5. Iterative Statements in Python	Operators, Type of Control Structures, Conditional Statements, Concept of Loops, Iterative statements, For Loop, While Loop, Infinite Loop, Using else in Loops	Project – To calculate the sum of all members from 1 to a given number. To print the digits of a given number in reverse order.
OCTOBER	6. Links and Frames in HTML	Revising HTML Tags, Linking Web Pages, Audio and Video, Frames	
NOVEMBER	7. Introduction to App Development	Apps, Types of Apps, Classification of Mobile Apps, Downloading and Installing on App, Developing your own App	Project – Ask the students to create and HTML document on the topic CSS Text vs CSS fonts. The webpage should contain two frames wherein one frame will display Text properties and the other font properties. Use unordered list to display the properties in each frame.
DEC. – JAN.	8. Machine Learning	Introduction to Machine Learning, Need for Machine Learning, Working of Machine Learning System, Machine Learning Algorithms, Application of Machine Learning	Project – Draw together with neural network. This experiment lets you draw together with a recurrent neural network model called Sketch – RNN.
FEB. – MAR.	9. Introduction to Robotics	Robot - Robots vs Automatic Machines – History of Robots, Components of Robots, Types of Robots, Classification of Robots, Some famous India Robots, Introduction to Robotics , Robotics and Artificial Intelligence	Project – Create a menu driven Python program to generate the following patterns based on the input given by the user.
